

Dynamics NAV To Business Central Upgrade

Are you clueless about the perfect strategy for upgrading the Dynamics NAV to Business Central without any error? Let Dynamics Square help you upgrade NAV with a smoother and stress-free process.

Get Started

Why should you Upgrade Dynamics NAV to Business Central?

If you are using the 2018 NAV version, you might be confused about whether to upgrade to Business Central or not. You must be looking for the answers to the various question about the process, cost, and implementation of the upgrade.

The most straightforward answer would be to upgrade to Business Central. It will simplify and automate your current business processes and make them adaptable for growth and scalability. It is one of the best ERP software solutions for small, mid-sized, or global organizations, and it will let you manage the processes of all departments altogether.

With the power of cloud deployment, the **Dynamics 365 Business Central** will let you manage the business processes run smoothly from anywhere and anytime. With the help of Business Intelligence, it will help you make real-time informed decisions for any process or operation whenever needed.

The data sharing and reporting become effortless with Business Central as it provides the flexibility to integrate with Microsoft apps. Microsoft Dynamics Business Central comes with features, functionality, and customizations to help users customize or modify the process as per the requirements to increase productivity and efficiency.

When is the right time to upgrade to Business Central?

If you are going through the below phases, this is the right time to upgrade from Dynamics NAV to Business Central:

- You are using an outdated **Dynamics NAV** version whose updates and customizations have been stopped by Microsoft.
- Your current NAV starts to lag even for processing simple tasks.
- Your Dynamics NAV versions have outdated and useless features with no use in modern business.
- The users face issues while collaborating to accomplish a task for overall growth.
- You don't have any support to resolve the errors of your current NAV version.
- You want to customize the NAV to optimize and process new operations.
- Your NAV version doesn't support scaling and managing the entire business from a single dashboard.
- You want to connect your existing **ERP solution** with the cloud to control everything remotely.

How to Upgrade from Dynamics NAV to Business Central?

If you are reading this, it means you are interested in upgrading your Dynamics NAV to Business Central and might be looking for a vendor partner. If yes, you can book a call with the team of Dynamics Square and leave everything to the experts.

Once you call us, our team will analyze your existing version of Dynamics NAV, business requirements, industry type, operations, and a few more parameters before giving you the best quote.

After this, you would have two options, either transfer your entire data on servers and customize your existing system for seamless performance or transfer only a portion of data and customize the system as per your requirements.

Once everything is finalized, we will provide you a quote of the required time and cost for the full upgradation of your ERP software. Everything will be fine as we have been working in this industry for quite a few years and the team of Dynamics Square knows how to be effortlessly perfect in upgradation and implementation.

Standard Upgrade ∨

Types of Dynamics NAV to Business Central Upgrade

As per the industry standards and business requirements, there are two ways you can upgrade to Business Central:

Most businesses have a ton of complex and unused data but want to transfer only some of it while upgrading to Business Central to carry out the important work. The standard upgrade is for such businesses. Not only the unused data, but such businesses can also eliminate the customized functions from transferring to the new servers of Business Central. This makes the whole system affordable, consuming less time, effort, and resources.

Customized Upgrade

Want to Upgrade only a Feature of NAV?

Maybe, you want to upgrade only a feature of your existing NAV version rather than upgrading the whole system. If so, you can easily upgrade the feature, whether it belongs to the financial capabilities or the integrations. In such a case, you can contact the Business Central Implementation partner, like Dynamics Square, to upgrade a feature of your current version of Dynamics NAV.
